

Auditory Processing Disorder (APD) SIG

We are delighted to share that there are three new APD recordings which will be available imminently on the BSA Online Learning platform:

1. Neural Basis of central auditory processing
2. APD: Overview and assessment
3. APD: Management

There are further recordings in the pipeline, including one specifically on APD in adults, for 2023.

We would also like to share an exciting opportunity - we are recruiting for 3 new members to join our BSA APD steering committee which is made up of researchers and clinicians across a range of professions.

We are also recruiting for 1-2 students and early career professionals to join our group. These roles offer a great opportunity for personal development, working with leading clinicians and researchers in the field of APD.

Please be aware that you need to be a member of the BSA to take up a role on BSA groups.

To apply, please complete the application form below or request a word version.

To send the completed form or request a word version please email bsa@thebsa.org.uk by midday 5 December 2022.
