

## **PAIG eUpdate**

This month has seen significant changes on the Paediatric Audiology Interest Group steering committee. Stuart Harris, Karen Willis, Dr Joy Rosenberg and Veronica Roscoe have all come to the end of their second term of service and will therefore be stepping down from the committee. The remaining committee members would like to thank them all for their invaluable contribution to PAIG and for all their help, advice and support. We are very glad that they will still be contributing to our activities through the Reference Group. Recruitment to the Steering Committee has begun and requests for further information or application forms should via the email [bsa@thebsa.org.uk](mailto:bsa@thebsa.org.uk)

The team continues to work on the Infant Fitting Guidance and the Visual Reinforcement Audiometry Recommended Procedure is now with the Practice Guidance Group for their review. The Recommended Procedure - Taking and Aural Impression: Children Under 5 Years of Age is now available on the BSA website.

PAIG have been inputting to the consultation regarding 'Redefining the Good: Paediatric Quality Standards', which will hopefully drive up the quality of service provision for children and families. Additionally, Stuart Harris was successfully appointed to the review committee for the NICE Otitis Media with Effusion in Under 12s guideline, so will continue to work closely with PAIG during this process.

As always, the team are happy to take suggestions for any guidance you would like to see developed in the future, or if you have any suggestions for online learning topics. If you are interested in supporting PAIG and could offer us a little (or a lot!) of your time to help please consider applying to the Committee – we would love to hear from you.
